

CURRICULUM VITAE

George A. Santisteban, Ph. D.

A. Personal

George Anthony Santisteban, born April 12, 1918, Cananea, Sonora, Mexico.
Citizenship, U.S.A.

B. Education

1. Graduate:

University of Utah: 1947-1951.

Ph. D. 1951. School of Medicine.

Major: Human Anatomy, Minor: Vertebrate Zoology. Training in gross anatomy, neuroanatomy, medical histology, human physiology, pathology, bacteriology, biochemistry, medical statistics, cancer biology, hemopoietic tissues, radiobiology, biology of connective tissues. Thesis: "The Growth and Involution of Lymphatic Tissue and Their Relation to Secretions of the Adrenal Cortex." Major Professor: Thomas F. Dougherty, Ph. D.

Postdoctoral training

1951-53, research under Dr. Thomas F. Dougherty and John Z. Bowers, M.D., in cancer biology and radiobiology at the University of Utah.

1963-1964, special training in microanalytical methods for analysis of intracellular RNA at the Institute of Neurobiology, Goteborg, Sweden.
Sponsor: Professor Holger Hyden.

1966-1967, Special fellowship, U.S.P.R.S., to continue training and do research in Goteborg, Sweden, Sponsor: Professor Holger Hyden.

M.A. 1949

Major: Zoology, minor: human anatomy. Thesis: "Histology of the Hair Molts in the Long-Tailed Weasel". Major Professor: W.W. Newby, Ph. D.

2. Undergraduate:

Pasadena Jr. College: 1938-1940. Pasadena, California.

Major: Preforestry, Training in general forestry, general botany, geology, surveying, astronomy, economics, history, English, - mathematics, chemistry.

Montana State University: 1940-1942; 1944-1946.

Majors: forestry and zoology. Training in soil technology, range management, higher mathematics, surveying, dendrology, silviculture, plant physiology, plant ecology, general zoology, comparative anatomy, ornithology, mammalogy, genetics, embryology, mammalian physiology, animal ecology, reproductive physiology, histology, evolution, biological literature, physics.
